

- ① what is JSP and JRE
- ② create a statement for ~~for~~ connecting the database
- ③ what is multiple inheritance?
- ④ what is an array
- ⑤ what is a garbage value?
- ⑥ what is your goal?
- ⑦ what are the OOPS concepts?

Lohitha

⇒ Based on resume.
Data structures (Arrays, linked list)
Mysql
connectivity of database with backend (what I
have used)
OOPS concepts.

✓ SRI SAI DEEPAK. - Panel - 06. - HR.
CT20234327713.

- 1) Final keyword
- 2) Padding in CSS
- 3) Margin in CSS
- 4) Types in input tag in HTML
- 5) Difference between Abstraction and Interface.
- 6) Method Overloading and Method overriding.
- 7) Constructor and Method
- 8) Project questions based on your project.
- 9) Draw the format of project.
- 10) Code to remove duplicates in array.
- 11) Where do you see your self in next 5 years
- 12) Is there a situation where a team mate disagrees your plan in project.
- 13) DDL, DML in SQL
- 14) Final keyword and unique keyword and difference between them.
- 15) Strengths and weakness
- 16) How do you overcome your weakness
- 17) If a junior asks how to overcome the weakness you have within short-time what suggestions you give?

- 1) Can we create your own header file?
- 2) About CSS?
- 3) CSS code
- 4) Projects.

- Self intro
- where are you exactly from
- why you want to join in ~~it~~ IT company
- Is this your first interview? if not what about the previous one
- Hobbies and their ~~del~~ justification
- EC2 instance in AWS
- what is AI
- Any Questions to the panel.
- ~~It is~~ If you have offer/placed in the previous Company which company you will choose? why?

- ⇒ Self intro
- Why did you choose AWS to complete your certification?
- What is Encapsulation
- Reverse a string without using length of string.
- SQL Query to update the salary of an employee.
- About project

- 1) what did you mention in your resume, what you didn't?
- 2) Difference between c language and Java language?
- 3) Constructor in java?
- 4) static variable in c?
- 5) interface vs abstraction?
- 6) what is full stack?

HR

- 1) strengths and weaknesses?
- 2) About club career, Recommendation for juniors?
- 3) How can a hacker be useful?

- OOPS pillar
 - Difference between delete & Truncate
 - Code to print reverse of string eg
"Hello World" to "World Hello"
 - inline in HTML — what if end user encounters a problem
 - Relocate, shifts,
 - input types in HTML — Anurag Pal
 - Everything based on Resume
 - What is encapsulation
-

* Self introduction
write query to ^{return} ~~print~~ Second highest number.

Some project based questions

difference between truncate and delete.

Truncate syntax

will you ok for any shifts?

will you able to relocate?

What do you know about tcs?

do you have any questions?

Differences between method overloading and overriding.

What is DBMS

What is relational and non-relational databases?

What was your role in your project?

Explain briefly about project.

What is your passion.

① Roshan

Self intro.

About certifications

Core subjects

Difference between EC2 and ~~no~~ normal cloud.

Arrays code

Role in the project

brief explanation about project.

1. Explain about your projects
2. Tell me about yourself
3. What is cloud
4. What are elastic services in cloud
5. Do you have hands on experience in cloud
6. Explain your cloud project
7. What is storage in cloud
8. What is S3
9. Types in S3
10. Differences b/w standard & Glaciers
11. What is Spring Boot
12. Differences b/w Spring & Spring Boot
13. Why should we hire you
14. Explain your other project
15. Any skills/activities not mentioned in ^{resume}
16. Have you attended any other interviews
17. If not why dint you attend IBM
18. Are you having any other offer with you
19. Tell me abt yourself
20. Comfortable with Relocation?
21. Flexible to work anytime?
22. Any MS plans?
23. Introduce yourself?
24. Brief about your project and also reason for choosing this particular project?
25. Java question that came in NQT Exam
26. What is auto scaling and why did you do aws cp

(Explain question in particular part when you are skilled in tech)

27. LEFT OUTER JOIN query by giving two tables?
28. Joins in SQL
29. OOPS concepts (4)
30. Inline block CSS & HTML
31. Selectors in CSS.
32. Introduce yourself
33. Asked about HTML → what tag you have used to render this page.
34. Full stack technologies - React, MongoDB, Node.js.
35. How you keep background color in styling
36. Any preferred locations?
37. If you got more package from another company. what will you prefer?

- Project details - domain, technology used, Database
- Certifications - Scenario based questions, tools
- Internships - questions.

☞ B. Narayana Panel-2

- Project, SQL (Basic), Comparators, Java, Certification
- Scenario Based, relocation.

T. Usher Reddy Panel-10

- forms in html write in paper.
- Error handling in Java
- lambda function in AWS
- what is API.
- if you were the team lead how will you manage the team
- Is the package sufficient for you.
- what is cloud computing & uses.

Hr:

- ① Will you able to relocate?
- ② Education details with percentages.
- ③ Why do you choose b-tech?
- ④ About family?
- ⑤ Abouts Projects
- ⑥ Resume Based Questions mostly.
- ⑦ Relocate Questions.

would you relocate ?

About parents ?

Are your parents aware of this ?

About 10th, inter background and percentages.

B. Sai Meghana

V. Abhay

-> DBMS

-> Projects

-> write code you used in your Frontend!

Questions about your skills.

OOPS concepts

What is Figma ?

What do you know about Tensorflow ?

Difference between supervised and unsupervised learning

Reinforcement learning.

Do you know openAI ?

Full form of chatgpt ?

would you relocate? OK with nightshift ?

Are your parents OK with it ?

→ Questions asked based on resume

→ Basic hr question like how you approach to learn new technology, pressure handling, relocation etc..

→ Question on project,
AWT,
Bubble sort
Data structures - types.

→ Question on Project - Java Swing, AWT
Program - Bubble sort
OOPS concept explanation

→ Questions:

- 1, 4 Pillars of OOPS
- 2, Data encapsulation
- 3, Diff interface and abstract class.
- 4, Diff b/w equal and equals in java.

~~5, Diff b/w~~

5, How did you start the project.

6, Strengths and weaknesses.

7, Diff b/w drop and delete in java.
